

Future Science Group
eBook
Collection

An essential resource for scientific research

- Cutting-edge content
- Perpetual access and ownership
- NO DRM – users can choose how to access content

All on one platform

A leading collection of biomedical books online

www.future-science-group.com/ebooks

Future Science Group eBook Features

- Fully indexed and searchable to chapter level
- Delivered from a single platform, interconnected to other FSG content
- No DRM – users can choose how they wish to access content. FSG eBooks can be delivered and utilized on most devices
- Fully integrated into the library catalogue
- Free MARC records
- COUNTER compliant usage statistics
- OpenURL compliance
- Subscription or one-time purchase models

Subject Collections

Subject areas include:

- Cardiology
- Dermatology
- Hematology
- Immunology
- Infectious Diseases
- Neurology
- Oncology
- Respiratory Medicine

Future Science Group eBooks are grouped into collections so libraries can quickly locate and provide the exact content their patrons require and users can rapidly find and use the relevant information they need.

With access to FSG's total book content in digital form, the FSG eBook programme is an essential resource for scientific research.

For a full listing of each title, visit www.future-science-group.com/eBooks

Individual **Future Science Group** eBooks are available directly from www.futuremedicine.com or through participating booksellers, subscription agents and online partners.

Pricing & Availability

Future Science Group eBook Collections are available through various models to meet your institution or corporation's specific needs.

We offer Academic, Hospital, Government and Corporate Single Site, Multi-Site and Consortia Licences.

Future Science Group eBooks are offered for one-off purchase as an annual package, or via a subscription model. Libraries and institutions can either purchase the entire annual collection or may purchase any number of Subject Collections.

Full archiving rights with continuous access to purchased content are free as long as the subscribing institution's account remains active with **Future Science Group**.

Annual Top-up Collections will be available for a reduced rate.

2011/12 Future Science Group eBook Programme

Academic and Hospital Pricing

Purchase	€ 3,300.00	\$ 4,465.00
Subscription	€ 1,450.00	\$ 1,950.00

Series eISSN 2047-332X

Conditions

Multi-site pricing available on request

Subscription model access will be lost unless renewed annually

When total subscription spend exceeds outright purchase price, collection is considered purchased
