## Expert Review of Clinical Immunology

**Editorial**  
Specific and tolerance induction in children with very severe cow milk allergy  
**David Pons**  
Comparative humanisation studies (Perforin)<sup>®</sup> for CD20  
**Martina Bonci**  
From International Congress on Familial Mediterranean Fever and Systemic Autoinflammatory Diseases  
**Kiri Parka Evaluation**  
Using the natural immune system to prevent allograft rejection  
Growth hormone in enhancing thymic regrowth and T cell reconstitution  
**Reviews**  
Association of genetic polymorphisms and autoantibodies in Addison's disease  
Cytokines and chemokines in immune based cancer vaccine immunisation  
Current and prospective treatment options for Sjögren's syndrome  
Sjögren's glandularitis: an update on diagnosis and therapy  
Imide toxicity in influenza virus: implications for future therapy  
Relationship between erythrocyte-associated antigens and FCV

## Expert Review of Vaccines

**Editorial**  
Recent vaccination of the newborn: an invaluable opportunity to address specific and non-specific adaptive immunisation  
**Michael Papanicolaou**  
"Molecularly" modified vaccinia Ankara as an attenuated shingles vaccine  
**Martina Bonci**  
Recent Advances in Cancer Immunotherapy with an Emphasis on Vaccines  
**Kiri Parka Evaluation**  
Key Points Evaluation  
Vaccines and vaccines: addressing CTL function in the new  
**Book Review**  
Vaccines: Current Research and Future Trends  
**Reviews**  
Cell-pain vaccines and their role in pain resolution in brain  
Future of shingles vaccination for adult population  
**Book Review**  
Randomised clinical studies of anti-tumor vaccination  
Recent updates on immunisation development  
**Highlights**  
Efficacy of shingles vaccine against shingles and post-herpetic neuralgia  
H1N1 vaccine impact on hospital-poor patients in Asia and Africa  
Shingles vaccine: is it still waiting for paediatric clinical trial?  
Use of human and SCID mice for human vaccine development

## Immunotherapy

January 2010 Vol. 1 No. 1

**Editorial**  
• Future of immunotherapy: a call for comparative immunology  
**Editorial**  
• Tumor and adaptive regulation of myeloid precursors and their potential for BCG immune training  
• News & Views  
• Review: Tumor-Dendritic Spindle Spreads to Immunotherapy  
**Drug Evaluation**  
• MAGE-A3 antigen-specific cancer immunotherapy  
**Research Paper Evaluation**  
• Regulatory T-helper 17 proteinase signals and fear of cancerism  
**Review: Anti-CD137 Immunotherapy with Ag8C1 complex proteins based subunit vaccine in a murine model of Mycobacterium tuberculosis infection**  
**Book Review**  
• Post-hemopoietic stem cell transplantation immune-mediated cytopenias  
**Reviews**  
• Cancer immunotherapy by boosters of dendritic cells and tumor cells  
• Chemopreventive potential for prostate cancer  
• Treatment of human T cell-leukemia immunotherapy for cancer  
• Cancer-associated neuropathic pain: targets for cancer immunotherapy  
• Immunotherapy in oral cancer  
• Chemokine-induced the receptors in cancer immunotherapy  
• Inhibition of EGFR-220222 interactions in malignancies  
• Modulating development of allergic response and pathogen infections

## International Journal of Clinical Rheumatology

February 2010 vol. 4 no. 1

**Editorial**  
Aspirin treatment for osteoporosis  
**Drug Evaluation**  
• Therapeutic response in rheumatoid arthritis: clinical trial on patients with diabetes  
**Conference Report**  
• 13th European Rheumatology European Society Congress  
**Priority Paper Evaluation**  
• From one genetic allele and failure to an HLA inhibition  
• Impact of pregnancy on rheumatoid arthritis activity  
• HLA polymorphisms in Rheumatoid arthritis  
**Special Report**  
• Rheumatoid arthritis: studies, musculoskeletal diseases  
**Reviews**  
• CD41 involvement of Sjögren's syndrome  
• Immunoregulatory T cell function in rheumatoid arthritis  
• Effectiveness and the development of novel rheumatoid arthritis  
• Management of juvenile idiopathic arthritis: clinical trials

# Immunology & Rheumatology

The **Immunology & Rheumatology Collection** from **Future Science Group** is an essential collection of journals covering a broad range of specialist topics keeping you at the cutting-edge of this exciting field of pioneering research.

Our titles are known for their quality, accessibility, timely news, the most up-to-date research & pertinent reviews.

**We are pleased to offer you FREE access to this collection, and are confident that it will be of great benefit to your work, thousands of readers worldwide agree!**

## Claiming your access to the collection

Claiming your FREE trial access could not be easier, simply email us at: [info@future-science-group.com](mailto:info@future-science-group.com) and quote the code: **IMTC11**. You will then have full - unrestricted online access to the collection for **30 days**.

**Extended institutional trials are also available**, email or call us to discuss your requirements.

*"Journals from the **Future Science Group** are leading in the field in their unique and comprehensive coverage of postgenomic medicine. I commend them thoroughly as your publishing partners for the genomic revolution."*

**Howard L McLeod**, Director, UNC Institute for Pharmacogenomics and Individualized Therapy, University of North Carolina, USA
