Future Science Group

Reaching medical practitioners in all key therapeutic areas

- » 40+ fully peer-reviewed titles focusing on clinical practice
- » Global distribution
- » Extensive network of external experts
- » Indexing in all major databases
- » Publication of original research and review articles
- » Unsolicited article submissions encouraged
- » Industry-leading standards of peer-review

Why publish with us?

Why publish in Future Science Group journals?

Industry-leading standards of peer review, presentation, speed of publication, online functionality and author service.

Fast-track publication as standard

- » As little as **12 weeks** from submission to publication

Accelerated publication available

- » Online publication within **6 weeks** of article submission

Indexing in Medline and other major databases

- » Including ISI/Current Contents, EMBASE

Trusted, ethical publication standards

- » Requirements of CONSORT, COPE, GPP2 & ICMJE endorsed fully

Unsolicited articles

We welcome the submission of
unsolicited manuscripts

Original research

- » Pre- and post-registration studies
- » Comparative effectiveness research
- » Observational studies
- » Clinical trial methodology
- » Cost-effectiveness/HEOR studies

Reviews

- » Narrative reviews
- » Systematic reviews
- » Unmet medical needs
- » Evidence-based medicine
- » Consensus and treatment guidelines
- » Management perspectives

Drug profiles

- » Concise review of the pharmacology, clinical efficacy and tolerability of a specific drug

Clinical trial commentaries

- » Critical appraisal of the rationale, design and results of a specific clinical trial/program

Communicate your scientific research as a supplement

Supplements may address:

- » Symposium proceedings
- » Abstract compilations
- » Workshop summaries
- » Article collections
- » Roundtable discussions

Benefits include:

- » Reach a wide range of healthcare decision makers
- » Raise awareness of latest product developments
- » Enhance and increase impact of a symposium

Supplements

Submission process

Submission process

Editorial Support Service

- » Dedicated editorial team available to answer any pre-submission enquiries
- » Immediate response on suitability of manuscript
- » Appropriate journal recommendation to provide optimal readership and return

Publication Support Service

- » Manuscript submission acknowledged within 24 hours
- » Decision on acceptance within 6 weeks of submission (within 3 weeks for accelerated publication option)

Accelerated publication:
online publication is provided within
6 weeks of article submission

Accelerated publication fees are £260 per published journal page

Accelerated publication

We accept submission of the following article types:

- » Original research
- » Reviews
- » Drug profiles
- » Clinical trial commentaries

Reprints & ePrints

Competitively priced and delivered rapidly to any part of the world

Reprints and ePrints are a cost-effective and authoritative way to provide information on advances in medicine and new therapeutic areas.

Supporting your publications planning

We have a full range of reprint/ePrint services to aid your promotional efforts.

All reprints are:

- » Customizable with covers, company logos and legal disclaimers
- » Easily distributable to your key contacts and prospects
- » Available in black-and-white and color formats
- » Translatable into all languages
- » Linked from print to online by use of QR codes

Reprints are available in quantities of 100 or more, and are printed on high-quality stock, reflecting our award-winning design.

ePrints are secure and fully trackable and can enhance dissemination of your article as a link via email or on a website/mobile application.

Contact Joanne Walker at j.walker@future-science.com to secure your competitively priced reprint solution

Future Science Group – journal information

Expert Reviews

Journal	Year established	Frequency	Medline indexing	Impact factor	Original research	Unsolicited articles	Acceptance rate
Expert Review of Anticancer Therapy	2001	12	Yes	2.970	No	Yes	80%
